

Medical Cannabis and the Treatment of Pain: Holy Grail or Total Fail

Learning Objectives:

Upon successful completion of this knowledge-based course pharmacists should be able to:

1. Describe the history of medical cannabis and the recent changes to the legal status of CBD.
2. Assess current literature for various medical cannabis products' safety and efficacy in the treatment of acute and chronic pain.
3. Using specific patient cases, develop a medical cannabis treatment plan for patients with various pain syndromes.
