

Activity Overview

This activity aligns with clinicians' scope by supporting appropriate assessment, testing decisions, patient counseling, and referral for suspected SIBO within outpatient and primary care practice

Target Audience

This activity is designed for an audience of Physicians, PAs, Pharmacists, and Nurses.

Learning Objectives

Upon completion of the educational activity, participants should be able to:

- Describe the basic pathophysiology of small intestinal bacterial overgrowth (SIBO) and distinguish it from other common gastrointestinal disorders.
- Identify common symptom patterns and clinical scenarios in which SIBO should be considered in outpatient practice.
- Evaluate appropriate use of breath testing for SIBO, including indications, limitations, and factors that may affect test interpretation.
- Apply practical communication strategies to respond to patient-driven SIBO inquiries and testing requests in a time-limited clinical setting.

Criteria for Success

To obtain a certificate of completion, a score of 70% or better on the post-test is required. Please proceed with the activity until you have successfully completed this program, answered all test questions, completed the post-test and evaluation, and have received a digital copy of your certificate. You must participate in the entire activity to receive credit. If you have questions about this activity, please contact AKH Inc. at bethany@akhcme.com.
